

CONTENTS

Chapter 1: Introduction to Linear Programming

1.1 Introduction	1
1.2 A Linear Programming Model	1
1.3 A Simple Maximization Problem	2
1.4 Graphical Solution Procedure.....	6
1.5 Formulating a Spreadsheet Model of the Johnston Chemical Problem.....	10
1.6 Using Solver	13

Chapter 2: Data Envelopment Analysis

2.1 Performance Evaluation	19
2.2 DEA Introduction	21
2.3 DEA Orientations and Calculation	26
2.4 Convex Combinations and DEA Efficient Frontier.....	33
2.5 Input-oriented DEA Envelopment Model	37
2.6 Input-oriented Envelopment Model in Spreadsheets.....	40
2.7 Output-oriented Envelopment Model.....	52
2.8 Output-oriented VRS Envelopment Model in Spreadsheets	54
2.9 Input and Output Slacks	59

Chapter 3: Efficiency Ratio and DEA Multiplier Models

3.1 Efficiency Ratio	69
3.2 Performance Evaluation of Highway Maintenance Crews.....	71
3.3 DEA Multiplier Model	75
3.4 DEA Multiplier Model in a Spreadsheet	79
3.5 Output-oriented DEA Multiplier Model.....	83

Chapter 4: DEA Dual Models

4.1	Introduction	91
4.2	CRS Envelopment Model	91
4.3	VRS Multiplier Model	95
4.4	Applying CRS Envelopment Model in Spreadsheets	98
4.5	Applying the VRS Multiplier Model in Spreadsheets	100

Chapter 5: DEA Models and Returns to Scale

5.1	Introduction	107
5.2	Returns to Scale Regions	110
5.3	RTS Estimation Using the Multiplier Model	112
5.4	RTS Estimation Using the Envelopment Model	118
5.5	Improved RTS Estimation Method	120
5.6	DEA Frontiers and RTS Models	125

Chapter 6: DEA Models for Special Cases

6.1	Introduction	133
6.2	Measure-Specific DEA Models	133
6.3	Negative Data	141
6.4	Undesirable Factors	144

Chapter 7: Slack-Based and Non-radial DEA Models

7.1	Introduction	155
7.2	Slack-Based DEA Models	156
7.3	Non-radial DEA Models	165
7.4	Cost/Revenue Models	176

Chapter 8: Restricted Multipliers

8.1	Introduction	185
8.2	Detecting Slacks in Multiplier Models	185
8.3	Assurance Region Models	187
8.4	Assurance Region Models in Spreadsheets	191

Chapter 9: Super Efficiency

9.1	Introduction	195
9.2	An Example	196
9.3	Infeasibility	199
9.4	Conclusion	203

Chapter 10: Productivity Change

10.1	Introduction	205
------	--------------------	-----

10.2 Malmquist Index.....	206
10.3 An Example: Top 50 Asian Banks	209
10.4 Conclusion.....	213
Chapter 11: Context Dependent DEA	
11.1. Introduction.....	215
11.2. Stratification DEA Method	217
11.3. Input-oriented Context-dependent DEA	222
11.4. Output-oriented Context-dependent DEA.....	230
11.5. Conclusion.....	233
Chapter 12: Flexible Measures	
12.1 Introduction.....	235
12.2 Input-Output Status Identification.....	236
12.3 Application.....	241
12.4 Conclusion.....	246
Index	247
